Editorial Representatives

M. A. WILLIAMSON
Publishing Director

Chemical & Metallurgical Engineering is the successor to *Metallurgical & Chemical Engineering*, which, in turn, was a consolidation of *Electrochemical & Metallurgical Industry* and *Iron & Steel Magazine*. The magazine was originally founded as *Electrochemical Industry*.

McGraw-Hill Publishing Company, Inc., New York City

Volume XLI

January to December, 1934

GENERAL ALPHABETICAL INDEX

	Pages
January	1 to 56
February	57 to 112
March	113 to 168
April	169 to 224
May	225 to 284
June	285 to 340
July	341 to 396
August	397 to 452
September	453 to 508
October	509 to 564
November	565 to 620
December	621 to 676

A

Absorption:
- Adsorption iodine, a successful domestic industry. P. D. V. Manning. *568
- Drying gases by absorption. Perry & Duus *74
- Gas absorption. E. M. Baker 243

Accounting:
- Economic considerations govern equipment replacement. W. P. Fiske (tables) 69
- Honest cost keeping in governmental competition (ed.) 115
- New deal in amortization, depreciation and obsolescence. W. P. Fiske 26

Acetic anhydride—process equipment materials used in the industry. D. F. Othmer 514

Acetone—process equipment materials used in the acetone industry. J. N. Compton 514

Acids:
- Dehydrating acetic acid by extraction. D. F. Othmer 81
- Hydrochloric acid—process equipment materials used in the industry. G. M. Graham 524
- Natural vs. synthetic sources of acetic acid (ed.) 115
- Nitric acid—process equipment materials used in the industry 526
- Process equipment materials used in the acetic acid industry. T. C. Albin 514
- Sulphuric acid—process equipment materials used in the industry. T. R. Harney 532

Adsorption. C. L. Mantell 249
- Drying gases by adsorption, refrigeration and compression. Perry & Duus 127

Agricultural products, non-food products from (ed.) 58

Air Conditioning:
- Controlling atmospheric conditions in rayon production. J. A. Lee *60
- How to avoid corrosion of air-conditioning equipment. W. H. Carter.. 140

Air tester for drums. L. E. Brunner (P. N.) *149

Alcohol:
- Alcohols of industry. E. W. Reed.. 576
- Ethyl alcohol—process equipment materials used in the industry. G. T. Reich 522
- Industrial alcohol control (ed.) 399
- Intercommodity effects recognized in NRA (ed.) 454
- Modern molasses distillery. G. T. Reich *64
- Production 1932-1933 40
- Production of ethyl alcohol by fermentation of molasses. R. R. Collins *171

Alkali:
- Ammonia-soda alkalis—process equipment materials used in the industry. L. C. Hughes 516
- Mathieson Alkali chooses Lake Charles. S. D. Kirkpatrick (Plant location study) *410
- Modern ammonia alkali plant at Corpus Christi, Tex. S. D. Kirkpatrick. *253
- 1933 developments *36
- Solvay's southern site. S. D. Kirkpatrick (Plant location study) *408
- Southern Alkali's site on the sea. S. D. Kirkpatrick (Plant location study) *412
- Southwestern alkali industry gets under way *612

Aluminum:
- A.I.C.E. feature aluminum at technical sessions 597
- Arc welded aluminum equipment *545

Aluminum chloride—process equipment materials used in the industry... 515

Aluminum sulphate—process equipment materials used in the industry. D. S. Dinsmoor 515

American Ceramic Society and Electrochemical Society—Report of Ashville meeting 274

American Chemical Society—Naval stores developments discussed at meeting 201

American Gas Assn.—Discuss new methods and problems in gas engineering. R. S. McBride *297

American Institute of Chemical Engineers—New York meeting 326
- Report of New York meeting 276
- Technical sessions feature aluminum.. 597

Amination by ammonolysis. Groggins & Shirton 271

Amination by reduction. P. H. Groggins 270

Ammonia:
- Process equipment materials used in the ammonia industry 516
- World export trade in sulphate of ammonia 32

Arsenic sales gain in 1934 (tables) 613

Autoclaves used in high pressure superphosphate process. M. Shoeld... *178

B

Bag sealer (E. N.) *210

Barium—1932 sales of products..... 48

Barrel coater, turpenter (E. N.)..... 491

Batteries, dry—process equipment materials used in the industry..... 521

Belt joint (E. N.) *492

Blower, geared-head (E. N.) *657

Blowing bromine from the sea. S. D. Kirkpatrick *402

Boiler, integral furnace (E. N.)..... 491

Boiler, oil-burning (E. N.)..... 209

Book Reviews:
- A.G.A. proceedings 485
- Achema Jahrbuch 321
- Air conditioning data 601
- Alcohol under state liquor laws. J. P. McGovern 655
- Allgemeine metallkunde. E. Powowarsky 487
- Alloys of iron and silicon. Greiner, Marsh & Stoughton 145
- Alloys of iron and tungsten. L. J. Gregg 320
- America's capacity to consume. Maurice Leven and others 654
- America's capacity to produce. E. G. Nourse and others 484
- America's hour of decision. Glenn Frank 600
- Annual report of the Society of Chemical Industry on the Progress of Applied Chemistry 204
- Annual reports on the progress of chemistry. Clarence Smith 484
- Annual survey of American chemistry. C. J. West 484
- Arsenical and argentiferous copper. J. L. Gregg 486
- A.S.T.M. proceedings 204
- A.S.T.M. standards, 1933..... 146
- A.S.T.M. standards on coal and coke 600
- Berl-Lunge chemische-technische untersuchungsmethoden. Ernst Berl 321
- Beyond the new deal. David Lawrence 600
- Boiling point charts. Germann & Knight 601
- Book of stainless steels. ed. E. E. Thum 145
- Brown's directory of American gas companies 485
- Building an engineering career. C. C. Williams 374
- Casting of brass ingots. Genders & Bailey 320
- Chemical engineers' handbook. Perry & Calcott 146
- Chemical engineers' handbook. ed. by Perry & Calcott. 27 sections reviewed 88
- Chemical formulary 144
- Chemical guide book 486
- Chemical patent index. E. C. Worden 203, 486
- Chemical engineering plant design. F. C. Vilbrandt 654
- Chemisch-technische entwicklung auf dem gebiete der kohlenwasserstoffole. ed. M. Pflucke 600
- Chemische technology der neuzeit. Otto Dammer 484
- Chemistry of petroleum derivatives. Carleton Ellis 319
- Chemistry of solids. C. H. Desch.. 486
- Codes, cartels, national planning. Bruno Burn 600
- Combustion et detonation des substances explosives. Marcel Patry.. 205
- Comparative life, fire, and explosions hazards of common refrigerants... 204
- Comprehensive treatise on inorganic and theoretical chemistry. J. W. Mellor 486
- Cost accounting, principles and methods. Charles Reitell 203
- Cost and production handbook. ed. by L. P. Alford 203
- Design and construction of high pressure chemical plant. Harold Tongue 374
- Deutsch-Englisches fachworterbuch der metallurgie. Henry Freeman.. 205
- Die bedeckungstheorie der passivitat der metalle und ihre experimnetelle begrundung. W. J. Muller..... 205

NOTES—(c) Comment; (ed) Editorial; (E. N.) Equipment News; *illustrated; (P. N.) Plant Notebook; (S) Synopsis or abstract.

E. Eng. Lib
Wilson
Chem. Eng.

Die edelstahle. F. Rapatz 601
Die technik der chemischen operationen. Walter Bader 205
Die technologie des edelstahles. Alfred Kropf 205
Discovery of the elements. Mary E. Weeks 486
Electrokinetic phenomena and their application to biology and medicine. H. A. Abramson 600
Elements of a national mineral policy 145
Energetische grundlagen der gastechnik. J. Schuster 321
English-German dictionary for metallurgists. Henry Freeman 487
Engine indicator. K. J. DeJuhasz.. 485
Ermudigungsfestigkeit von kesselbaustoffen und ihre beeinflussung durch chemische einwirkungen. C. Holzhauer 205
Fortschritte in der anorganische-chemischen industries. Brauer & D'Ans 486
Fortschritte des chemischen apparatewesens. ed. Brauer & Reitstotter.. 486
Functional size-analysis of ore grinds. A. J. Weinig 204
Gas engineers' handbook 374
Gauging manual 204
Handbook of chemistry and physics. ed. by C. D. Hodgman 146
If you want to get ahead. R. W. Sherman 374
Industrial heat transfer. Alfred Schack and others 485
Industrial marketing. J. H. Frederick 654
Industrial radiography. St. John & Isenburger 320
Industrialized Russia. Alan Hirsch.... 319
Introduction to the biochemistry of nitrogen conservation. G. J. Fowler 485
Introduction to thermodynamics for chemists. D. J. Martin 320
Investigations of fuels and fuel testing 485
Les explosifs. W. Main 203
Lyophilic colloids. Fischer & Hooker 484
Manufacture of soda. Te-Pang Hou.. 144
Manufacture of whiskey, brandy and cordials. Irving Hirsch 487
Markenbezeichnungen im feuerfestfach und im ofenbau. L. Litinsky 205
Mechanical separations. A. Anable and others 146
Metallurgical analysis by the spectrograph. D. M. Smith 145
Metallurgy of iron and steel. Bradley Stoughton 320
Mineral industry during 1933. ed. by G. A. Roush 655
Minerals yearbook 145
Miners and management. Mary Van Kleeck 485
Movement and storage of materials. G. L. Montgomery 146
Organic syntheses. ed. by W. W. Hartman 375
Out of the test tube. H. N. Holmes. 375

Plastic molding. L. F. Rahn..... 655
Pocket tables for cubics. David Katz 204
Porphyry coppers. A. B. Parsons.. 145
Power generation and mechanical power transmission. A. D. Blake and others 146
Praktische metallkunde. Georg Sachs 146, 486
Preparation and prosecution of patent applications. C. W. Revise..... 144
Principes de chimie industrielle. W. H. Walker and others 320
Principles of food preservation. T. N. Morris 487
Procedure handbook of arc welding design and practice 204
Qualitative analysis. J. S. Long and others 204
Quantitative chemical analysis. G. M. Smith 204
Rayon and synthetic yarn handbook. ed. Schwarz & Mauersberger..... 485
Recent advances in physical chemistry. Samuel Glasstone 486
Reports and report writing. F. C. Zeisberg 147
Reports of the progress of applied chemistry. T. F. Burton 484
Romance of research. Redman & Mory 146
Sampling and analysis of pig iron and cast iron 320
Schwefel, graphit, jod, bor, megnesit, talk. O. Stutzer and others..... 205
Science of radiology. ed. by Otto Glaser 204
Statistical year-book of the League of Nations, 1932-33 204
Symposium on cast iron 145
Textbook of inorganic chemistry. Fritz Ephraim 203
Thermodynamics of electrical phenomena in metals. P. W. Bridgeman.. 320
Thorpe's dictionary of applied chemistry. Thorpe & Whiteley 486
Twenty questions on the economic security of the people 601
Uniform cost activities in trade and industry 203
United States and the Soviet Union 203
World resources and industries. E. W. Zimmermann 319
Boron minerals production 1920-1932... 47

Bromine:

Blowing bromine from the sea (Plant location study) S. D. Kirkpatrick *402
Process equipment materials used in the bromine industry. M. Y. Seaton 518
Burner, radiant heat (E. N.) *656
Butyl compounds—1933 production..... 41

C

Calcium acetate (ed,) 455
Acetic acid vs. calcium acetate. D. F. Othmer (c.) 599
Calcium chloride—process equipment materials used in the industry. H. E. Kreider 518
Calorimeter, portable gas (E. N.) *604
Camphor—Review of synthetic camphor industry in 1933 50
Carbon—Export sales of carbon black, 1930-1932 50
Carbon tetrachloride—process equipment materials used in the industry. Walker Penfield 519
Casein—mechanizing the production of superior casein *645
Caustic soda—process equipment materials used in the electrolytic caustic industry. L. D. Vorce 522

Cellulose Acetate:

1933 production 43
Process equipment materials used in the industry. H. C. White 519
Production of cellulose acetate. H. C. White 306

Cement:

Admixtures improve properties of sulphur cements. W. W. Duecker...*583
Cements for corrosion, heat and solvent resistance. T. R. Olive..... 537
Chrome cement (E. N.) 380
Portland cement—process equipment materials used in the industry.... 528
Centrifugal separation. A. E. Flowers... 264
Centrifugals—Operating pointers for users of suspended centrifugals. W. T. Powers *84
Centrifuges 541

Ceramics:

American Ceramic Society and Electrochemical Society meet..... 274
Southern raw materials beckon ceramic industry. A. F. Greaves-Walker.*424
Charcoal—Wood chemical output restricted only by charcoal sales. R. S. McBride *42

Chemical Engineering:

American Institute of Chemical Engineers meet in New York 276
Assets and liabilities. J. H. Perry....*226
Chemical engineer as an individual. R. S. McBride 344
Chemical engineer becomes a college president (ed.) 170
Chemical engineers in Kimberly Clark Corp. organize. H. E. Wright (c.) 202
Let's look at the balance sheet! (ed.) 225
New professional responsibilities for chemical engineers. H. C. Parmelee. 16
Permanent relief organization. M. R. Bhagwat (c.) 202
Purpose of the union. I. Ehrlich (c.) 322
Unemployment—problem that begs permanent solution (ed.) 341
What price professional progress? (ed) 169
What's ahead in chemical engineering and in Chem. & Met. (ed.) 3
Why chemical engineering economics? (ed.) 1

Chemical Industry:

Approved code for chemical manufacturing industry 59
Favorable outlook for foreign trade in chemical. Concannon & Swift (tables) 10
Imports and exports (ed.) 113
Inter-relations of petroleum and chemical industries. A. L. Davis..*136
Natural vs. synthetic (ed.) 9
Significant anniversaries (ed.)..... 342
What about the future of chemical prices? E. B. Laufer..... 18
What our alphabetical government means to process industries. R. S. McBride *4
Why these new chemical industries "went South." S. D. Kirkpatrick..*400
U. S. Pharmacopoeia revises chemical standards 663

Chemical & Metallurgical Engineering:

Bouquets and brickbats 322
Historical summary 3
Chemical raw materials for process industries 112, 168, 224

Chemicals:

1933 developments 52
Supplement: chemical raw materials for process industries.....Jan., 1934
"Chemurgic" (ed.) 567
Chromates and bichromates—process equipment materials used in the industry. J. J. Vetter 520
Classification—Settling separations. Roberts & Darby 252
Clutch, magnetic disk (E. N.) *153
Coal and Coal Products:
Coal tar refining—process equipment materials used in the industry. J. M. Weiss 520
Influence on chemical revolution. G. B. Roorbach 78
Production of coal-tar dyes, 1925-1933 388
Review of industry in 1933..... 46
Cock, ceramic (E. N.) *151

Codes:

Administration members for code authorities 326
After the code, what? (ed.) 58
Approved code for chemical manufacturing industry 59
Chemical industry must face new labor problems. E. C. Eckel 14
Four out of five for permanent codes (ed.) 342
Natural vs. synthetic (ed.) 9
Progress in chemical code compliance 278
Selling chemicals by code. G. E. Conkling 20
Shall we throttle invention by code? Crosby Field 121
T.A.P.P.I. discusses influences of the codes 143
Trade practices written into codes of chemical and related industries. G. E. Conkling 20

Coke and Coking:

Byproduct coke—process equipment materials used in the industry.... 518
Byproducts obtained from coke-oven operations in 1932 46
Byproduct coke, natural gasoline and petroleum refining plants in the South. R. S. McBride *420
Wear resistant materials for coke handling equipment. C. R. Locke.*352
Color analyzer (E. N.) *491
Combustion, submerged, for heating and evaporating problems. K. A. Kobe.*300
Compression—Gas drying by adsorption, refrigeration and compression. Perry & Duus 127
Compressor, vertical (E. N.) *210
Construction, new....56, 111, 167, 223, 284, 395, 451, 507, 563, 619, 675
Contactor, adjustable timing (E. N.)....*152
Control—Classification of unit operations and equipment. T. R. Olive..... 229
Variable speed transmission controls pressure. F. A. Westbrook (P. N.).*377

Controllers:

Air operated (E. N.) 210
Automatic pump (E. N.) *657
Thermometer controller (E. N.)....*493
Conveyors—Selecting screw conveyors. R. F. Bergmann *470
Cooler, water (E. N.) *493
Cooling. See Refrigeration.
Copper sulphate—process equipment materials used in the industry. Pierce Barker 520

Corrosion:

Galvanic corrosion 135
How to avoid corrosion of air conditioning equipment. W. H. Carter.. 140
Materials of construction for process industries from viewpoint of the user (symposium) *513
Phenolic resin equipment resists corrosion. W. H. Adams, Jr.....*349
Rubber acid hose for process industry service. Maclachlan & Klein.....*365
Silver may answer your corrosion problem. B. A. Rogers *631
Costs—Economic considerations govern equipment replacement. W. P. Fiske (tables) 69

Couplings:

Flexible (E. N.) *151
Non-lubricated (E. N.) *493
Sprocket (E. N.) *153
Threadless pipe (E. N.) *211
Torque ring (E. N.) *209
Crystallization—Chrystallization. H. B. Caldwell 245

D

Derricks, floating, used for sulphur mining at Grande Ecaille. W. T. Lundy.*116
Developing pictures in the movies. A. B. Laing *474
Dialysis. H. M. Powell 260
Differential settling. Settling separation. Roberts & Darby 252
Disintegration. L. T. Work 239
Classification of unit operations and equipment. T. R. Olive 229
Dissolving—Rayon production. J. A. Lee.. *60

Distillation:

Distillation. J. S. Carey 248
Forest products plants in the South. R. S. McBride *421
Hardwood distillation industry in 1933. R. S. McBride *42

NOTES—(c) Comment; (ed) Editorial; (E. N.) Equipment News; *illustrated; (P. N.) Plant Notebook; (S) Synopsis or abstract.

Liquor distillation—Mushroom growth is proving unhealthy (ed.) 286
Liquor distillery—Hiram Walker plant—nears completion. L. C. Cooley.. *183
Manufacture of synthetic chemicals for perfumery. R. Trubek..... *199
Modern molasses distillery. G. T. Reich *64
Production of ethyl alcohol by fermentation of molasses. R. R. Collins *171
Wood distillation industry in 1933. R. S. McBride *42
World's largest distillery—Hiram Walker plant—nears completion. L. C. Cooley *183
Drive, portable (E. N.) *379
Drive, unit agitator (E. N.) *658
Drums for a single trip—M.C.A.'s Steel Barrels and Drums Committee..... *648

Drying:

Drying. Arnold Weisselberg 250
Gas drying by absorption. Perry & Duus *74
Gas drying by adsorption, refrigeration and compression. Perry & Duus 127
Spray drying insecticides and allied chemicals. E. C. Alford *634
Dust and fume handling—Collecting dust from soap grinding operation..... *473
Dyes—Imports increase in 1933 32
Process equipment materials used in the industry 521
Dynamite—process equipment materials used in the industry 521

E

Economics:

Decentralization of industry (ed.)... 397
Foreign trade as shaped by the chemical revolution. G. B. Roorbach.... 78
Industrial recovery (ed.) 621
Learning as we go (ed.) 57
More goods at lower prices (ed.)..... 565
Questioning our way toward recovery (ed.) 114
Saying it with dollars (ed.) 455
Supreme Court decision on mortgage moratorium shows lay of the land (ed.) 58
What our alphabetical government means to process industries. R. S. McBride *4

Editorials:

After the code, what? 58
Alertness needed in foreign trade.. 566
Am I my brother's keeper? 543
An open season for chemical tariffs. 454
Another light that failed 399
Centralizing medical authority 398
Chemical engineer becomes a college president 170
Chilean revival? 343
